

QwikSpray® pretreatment is an essential part of the QwikDry® system. It is a concentrated prespray for use in restoration cleaning and on extremely soiled areas of carpet, such as traffic lanes. This anti-resoiling formula has been designed to dry fast and eliminate over-scrubbing when heavy soil and grease accumulation are a problem.

DILUTIONS

- Medium soil: US: 21 ounces per gallon of hot water.
Metric: 165 milliliters per liter of hot water.
- Heavy soil: US: 32 ounces per gallon of hot water.
Metric: 250 milliliters per liter of hot water.

DIRECTIONS

- 1) Always test for color stability before use.
- 2) Lightly mist diluted QwikSpray over heavily soiled areas, such as traffic lanes.
- 3) Apply QwikDry® Cleaning Compound and proceed to clean.
- 4) For use as a carpet spotting agent, dilute 1 part QwikSpray with 2 parts water. Apply to affected areas without saturating. Apply QwikDry Cleaning Compound as directed.

TECHNICAL DATA

pH at use dilution	9.80
Compound type	nonionic
Water solubility	complete
Freeze/thaw stable	yes
VOC compliant	yes
Shelf-life, years	5+

AVAILABLE SIZES

US gallon . 55-gallon drum

ADVANTAGES AND USAGES

- ▶ Quickly emulsifies and suspends embedded oily soil from carpet.
- ▶ Safe for use on New Generation carpet and natural fibers, such as wool and cotton.
- ▶ Concentrated for extra cost savings.
- ▶ This product does not contain Butyl Cellosolve.
- ▶ User safe.

CUSTOMER INFORMATION

Hypoallergenic when dry.
Removes more soil for a long-lasting, clean carpet.
Does not leave residue; rinses completely.
Nontoxic. Biodegradable.
